STUDENT ALUMNI MENTORSHIP PROGRAMME

What is Student Alumni Mentorship Programme(SAMP)?

It is a unique initiative undertaken by the Students' Alumni Cell with an aim to foster meaningful relationships between the alumni and current IIT KGP students. Through this initiative we create a platform for the students to tap into the knowledge and wisdom of the alumni. The connections made in this program help prepare students for a successful future and leave a lasting impact on the campus community.

Why be a mentor?

1. It is a way for you to stay connected and give back to the Institute.
2. Working with students one-on-one can give you a new insight and fresh perspective.
3. Your support and contribution can make a difference in a student's life.
4. You can be the mentor you wish you had.
5. It is the best way to shape the leaders of tomorrow and enhance your own leadership skills.

*"A mentor empowers a person
to see a possible future and
believe it can be obtained."*

What can you do as a mentor?

- More than just a mentor, you can be a friend to your mentee.
- You have the opportunity to share your professional and personal experience with the current students and help open a mind to the world of opportunities that awaits him outside of KGP.
- By who you are and what you do, you get to nurture a young student and open a door for him in a possible career in Science and Engineering by helping him identify his interests and choose his career path.
